Professional Summary

BCA graduate specializing in Artificial Intelligence Machine Learning with hands-on experience in frontend and full-stack web development through internships and project work. Skilled in JavaScript, TypeScript, React, Node.js, PHP, SQL, MongoDB, REST APIs, Git, and responsive web development. Experienced in building and deploying responsive web applications, integrating APIs and payment workflows, and developing database-backed solutions. Seeking entry-level Frontend Developer, React Developer, Full Stack Developer, or Software Developer opportunities.

Technical Skills

Programming	:	JavaScript, TypeScript, Java, PHP, HTML, CSS
Frontend	:	React.js, Bootstrap, Responsive Web Development
Backend	:	Node.js, REST APIs, PHP
Databases	:	MongoDB, SQL
Web/CMS	:	WordPress, Elementor
Tools	:	Git, GitHub, VS Code, Figma, cPanel
AI & Data	:	Artificial Intelligence, AI Prompt Engineering, Data Management, AI-Assisted Workflows
Other	:	Payment Gateway Integration, UI/UX Design

Experience

Full Stack Developer Intern May 2026 – Aug 2026
Starvix Business Consulting LLP *On-site*

- Developed and deployed **3+ responsive web applications and client websites** using **React, JavaScript, PHP, and Bootstrap**, focusing on responsive UI, functionality, and usability.
- Integrated **Stripe payment APIs** into web applications to support online transaction workflows and backend API communication.
- Applied **AI tools and prompt engineering** to accelerate development, content generation, and structured digital workflows.
- Built and customized responsive **WordPress websites** using **Elementor, Bootstrap, HTML, CSS, and PHP** based on client requirements.
- Deployed and maintained web applications through **cPanel** while managing source code and version control using **Git and GitHub**.

Full Stack Developer Intern Jun 2025 – Jul 2025
CodeTech IT Solutions *Remote*

- Developed interactive web applications including a **weather application, Chrome extension, and live chat interface** using **HTML, CSS, JavaScript, and Bootstrap**.
- Implemented **responsive UI components and browser-based functionality** using JavaScript and Bootstrap across multiple projects.
- Created application layouts in **Figma** and translated UI designs into responsive, functional web interfaces.

Projects

Compaaro AI *React, JavaScript, Node.js, MongoDB*

- Built a **full-stack price comparison application** displaying aggregated product prices using React, Node.js, and MongoDB.
- Worked with structured product information and **database-backed application workflows**.
- Applied **AI prompt engineering** to optimize product metadata sorting and content workflows.

AI-Based Menstrual Tracking App *React, Node.js, MongoDB, Figma*

- Developed an **AI-focused application** for menstrual cycle tracking and prediction as part of an AI/ML-oriented project.
- Designed application UI prototypes and user flows using **Figma**.
- Developed backend cycle-tracking services using **Node.js and MongoDB** with database logging.

OM Homes Luxury Living *WordPress, Elementor, HTML, CSS, PHP*

- Designed and deployed a responsive real-estate portal with inquiry forms, user navigation, and database-backed workflows.
- Implemented frontend functionality using **HTML, CSS, PHP, WordPress, and Elementor**.

Education

BCA (Specialization in Artificial Intelligence & Machine Learning) 2023 – 2026
Manav Rachna International Institute of Research and Studies *Faridabad, Haryana*

Senior Secondary (Class XII) 2022 – 2023
Tagore Academy Public School *Faridabad, Haryana*

Certifications & Leadership

- **Certifications:** Microsoft Azure AI Essentials | Ducat Full Stack Development with Node.js | Cisco Cyber Security
- **Leadership:** Webmaster at ACM-W (2024–2026) | Volunteer at OP Bhalla Foundation
